

Coding Enrichment Dojo

THE ART OF CODEFU

Spring 2024

SHAPING SOCIAL & EMOTIONAL DEVELOPMENT
THROUGH CODING/COMPUTER PROGRAMMING

Grade Level: K - 8th

Day/Time: Wednesday's / 3:00 - 4:00

Class Dates: April 10 - May 29

Cost: **8** Week Program – \$199

Enrollment Deadline: April 3, 2024

Returning Students will continue using various block coding applications to challenge their creativity and develop their computer skills from keyboarding to critical thinking. Coding promotes computational thinking, problem solving, self-expression, collaboration, and equity. The "Art of CodeFu" has been found to help students succeed across disciplines such as; math, computer science, language arts, and social studies.

New Students will be introduced to coding language with a simple visual interface that allows young minds to create digital stories, games, and animations. The ability to code computer programs is an important part of literacy in today's society. Your student will learn important strategies for solving problems, designing projects, and communicating ideas - all invaluable life- skills.

Older/Advanced Students will challenge their creativity as architects of websites and/or video games. Emphasis is placed on imagination and development of problem solving skills which will prepare and propel them in the ever evolving technology world.
